

For kind attention of Schools

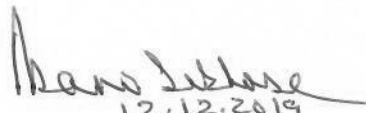

When the Midterm Examination results of Class VIII 2019 were checked, it was found that a good number of schools were not opting for Naga Heritage Studies.

As such, when the Form No. 33 was developed, the column for entering the marks of Naga Heritage Studies was not created as the pass criteria for the schools without the Naga Heritage studies would not be fulfilled.

However, the Board could not inform the schools beforehand and we regret for the confusion created.

So, for this year, the criteria for passing Class VIII Examination shall be based on the marks secured in 6 (six) subjects only i.e., English, Grammar, Science, Mathematics, Social Sciences and Hindi.

While appreciating schools who have taken up the Naga Heritage Studies as a subject in Class VIII, it is our request to all to keep the records of their student's achievement of this subject.
